
Double Displacement Reactions Answer Key

i. the meaning of a chemical equation - chymist - 2 it is important to note that the balancing of an equation is accomplished by placing numbers in front of the proper atoms or molecules and not as subscripts. in an equation, all chemical species appear as correct formula units. the addition (or change) of a subscript changes the meaning of the formula unit and of the equation. **chemical reactions & equations chapter 1** - 4 chapter 1 - chemicals reactions & equations formative assessment manual for teachers chemical reactions & equations chapter 1 assessment technique: diagram based worksheet objectives: to enable students to recognise a displacement reaction. **chapter1 chemical reactions and equations** - chemical reactions and equations 5 short answer questions 19. write the balanced chemical equations for the following reactions and identify the type of reaction in each case.
