
Escaping Me Shaft On Tour 1 Cat Mason

bleeding the fuel system & filter changing hints 11/29/12 - starting the engine: if you have bled the system following a routine maintenance filter change, it should not be necessary to vent the high pressure lines from the pump to the injectors. if, however, the engine shows reluctance to start, i suggest using a 5/8" wrench, to loosen any 2 high pressure line union nuts at the injector inlets.
